Subject: Generic letter for responding to HF correspondence

Hello,

Attached is a generic letter that should be used when responding to HF correspondence regarding EPA HF actions and upcoming actions, and the 3 sites: Dimock, Parker County, and Pavillion.

The letter is drafted so that you can choose the portions of the letter that are responsive to the particular correspondence your folks are addressing. This letter is up-to-date as of today but the information continues to change. So, please check back with Dale and myself to make sure your folks have the latest information moving forward.

Thanks

Mary
